Breathing through, to at-risk youth, in Fresno, CA, 429
Breast arterial calcifications (BAC), detected by digital mammography, 8
Breast milk: dry eye treatment, human milk, 360 effects and infant formula on 2nd to 4th digit ratios, 193 on longitudinal bone growth measured by digit to stature ratio in children, 194 Breast tissue: 2D photographic imaging, to measure differential volumes in reconstructed, 317 Breast-fed vs. formula-fed children, 72 Breastfeeding (BF): experience of mothers, exclusively breastfed until 6 months of age, 275 peer counselors training, 182 surveys, develop first week and follow up, 427 Bronchopulmonary dysplasia (BPD): hepatocyte growth factor and endothelial cell growth in, 31 hepatocyte growth factor stimulates fetal sheep alveolar type II cell and endothelial cell growth and improves lung structure in experimental, 171 longitudinal plasma endothelin-1 levels in premature infants with and without, 121 Burkitt lymphoma, using text messaging to improve appointment adherence among, 111 Buruli ulcer, environmental determinants of, 261

C

Cerebellar noradrenergic innervation, is
Cell therapies, mesenchymal stem cells as, in
CD4 T cells, knockout on cisplatin-induced CD14+ circulating monocytes,
Cav1.3 calcium channel, expression in
caudal epidural ropivacaine, preemptive
Cardiac tissue engineering, carbon nanotube
Cardiac arrest, layperson CPR in, for
Carbon nanotube scaffolds, for cardiac tissue
Cardiac arrest, layperson CPR in, for
Cardiac surgery patients, beneficial effects of
preoperative statins on, 426 Cardiac tissue engineering, carbon nanotube
scaffolds for, 3
Carpal tunnel syndrome and cubital tunnel syndromes, coincidence, 329
Catheter ablation, of posterospetal accessory
pathways, 199
Caudal epidural ropivacaine, preemptive
analgesia, in children using, 327
Cav1.3 calcium channel, expression in
gastrointestinal tract and kidney, 211
CD14+ circulating monocytes, pro-inflammatory gene expression in, 204
CD4 T cells, knockout on cisplatin-induced AKI and lung cancer in mice, 311
CD+CD40+ T cell, levels predict risk of
developing type I diabetes in pre-diabetics, 27 Cell therapies, mesenchymal stem cells as, in
heart failure, 2 Cerebral nerve wire, primary fixation method for long spiral fractures in long bone, 151 Cerebellar noradrenergic innervation, is fundamental for the onset of Parkinson disease, 127 Cerebral amyloid angiopathy, complement-mediated degeneration of microvascular smooth muscle cells in, 123 Cervical cancer screening, addressing barriers to, 97 Cervical radiculopathy, effect of magnetic resonance imaging, 362 Chemoprevention, of neonatal jaundice using polynmeric particulate delivery of zinc protoporphyrin, 41 Chest computer tomography, hierarchical representations for lung nodule detection in, 442 Childhood nephrotic syndrome treatment, in-center practice variation, 315 Childhood obesity in Boyle Heights, and analysis of its pediatric health profile, identifying community perceived causes of, 350 intervention, 63 Children post-oncologic therapy, hepatic focal nodular hyperplasia in, 419 Chimeric antigen receptor (CAR), combinatorial antigen recognition, by engineered T cells, 103 Chlamydia, preventing spread of through adolescence, 262 Choline concentration, healthy non-pregnant and pregnant women of Caucasian and Chinese descent, 432 Chromosome 19p13.11 deletion, Hemimegalencephaly and extensive capillary malformations in a newborn with, 297 Chronic anterior uveitis (CAU), humor protein levels in children with, 24 Chronic fetal hypoxia, attenuates glucose stimulated insulin secretion in fetal sheep, 378 Chronic hypoxia, suppresses mucusaric induced contractility in intact ovine pulmonary arteries, 118 Chronic kidney disease (CKD), diuretic management of patients with stage 3 and 4, 173, 314 Chuanhung liposome, pharmacokinetic and tissue distribution study of, 250 Circulating tumor cell (CTC) counts and telomerase activity (TA), prognostic of overall survival (OS) in SWOG S0421, 446 Circulatory death, organ donation in
Cord blood bilirubin (CBB), treatment in neonates for hyperbilirubinemia, 39
Cordycepin induces tumor cell death, ERKS
Cord blood bilirubin (CBB), treatment in neonates for hyperbilirubinemia, 39
Cordycepin induces tumor cell death, ERKS
Cosmesis, in porcine model, impact of port-less
Coronin 2A, regulates macrophage
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Corneal deformation, caused by topical loaded manganese-enhanced MRI, 44
Coronary artery disease (CAD), prevalence in, 3 and 4, 173, 314
Cut bank, Montana through health literacy and breastfeeding practices, 371
Cyclosporine (CyA) and tacrolimus (TAC) dosing, in pediatric heart transplant, 435
Cytisine for African Americans vs. Caucasians, 437 in preventing the development of circulating antibodies after heart transplantation, 198
CYP450s, enrofloxacin effects on, 70 Cystic glioblastoma tumors, derived from low-grade gliomas, 105

D

3D photographic imaging, to measure differential volumes, in reconstructed breast tissue, 317 Da Vinci robot training, dilemma, the Raven robot as a solution, 320 Dairy goat project, to improve the nutritional and economic benefit of local goats, 67 Darbe administration in newborns undergoing cooling for encephalopathy, safety and pharmacokinetic trial, 224 Day laborers mental health, and other psychosocial stressors, family separation impact, 344 utilization, of health care services, 267 Deep brain stimulation (DBS), cranial window

E

Early childhood caries (ECC), prevention, 347 Early childhood nutritional practices, in rural Uganda, 394 Echocardiographic assessment, of pulmonary hypertension (PH) predicts outcome in infants with, congenital diaphragmatic hernia (CDH), 402 Educating senior citizens and caregivers in Red Lodge, 268

F

Facet tropism and disc degeneration, in thoracic spine correlation, 420 Facial paralysis, quantitative assessment of, using formal concept analysis, 78
Family Centered Care (FCC), 411
Family separation impact, on day laborers’ mental health and other psychosocial stressors, 344
Fat content and caloric density of human milk, infant weight gain, 359
Femurs, long bone spiral fractures, sheep femur model, 334
Fetal heart failure, thyrotoxicosis-induced, 49
Fetal pancreatic progenitor cells, HIPIP2B effects of, 377
Fetal RhD, determination of, status using fetal nucleic acid in the maternal circulation, 172
Fetal skeletal muscle fiber, high fat diet (HFD), developmental responses, 211
Fine needle aspiration (FNA), 389
Focal nodular hyperplasia (FNH), in children, 72
Frontal fibrosing alopecia, thyroid disease and relationship between, 79

G
Gamma knife as salvage therapy, in glioblastoma, 322
Glioblastoma multiforme (GBM), bevacizumab treatment in, 419
Gestational age (GA), infants over time survival and outcomes of, 23-week, 464
Gestational age (GA), infants over time survival and outcomes of, 23-week, 464
Giardia intestinalis tract and kidney, Cavi1.3 calcium channel expression in, 211
Glycated albumin, realistic in patients with diabetes mellitus, 205
Glycemic control, for subcutaneous insulin therapies in, 2
Glycated albumin, realistic in patients with diabetes mellitus, 205
Glycemic control, for subcutaneous insulin therapies in, 2
Glycogen, human specific neural gene, 218
Glycosaminoglycans, heparin inhibits, non-small cell lung cancer cell line proliferation, 110
Gelatin-thrombin matrix tissue sealant, risk of pelvic abscess, 421
Gestational age (GA), infants over time survival and outcomes of, 23-week, 464
Gestational age (GA), infants over time survival and outcomes of, 23-week, 464

H
Hand asymmetry, in breast-fed vs. formula-fed children, 72
Hands-only cardiopulmonary resuscitation, increase operation competency, 265
Hard palate repair, on facial growth, evaluate timing of, 83
Health care counseling for lesbian, gay, bisexual, and transgender patients, 271
services, day laborer utilization of, 267
transition, for youth with special health care needs, 91
Health careers, diverse population of youth towards, 50
Health education and assessment through targeted homeless outreach in Missoula and MT, 370
Health literacy of low literacy populations through health education, 52
Healthy habits, teaching through community based initiative, 59
Heart failure (HF), mesenchymal stem cells as cell based therapies in, 2
Heart transplant frailty is associated with, 134
Healthy beginning initiative (HBI), in resource limited settings, 160
Healthy habits, teaching through community based initiative, 59
Heart failure (HF), mesenchymal stem cells as cell based therapies in, 2
payer status affects 30-day revisits for patients discharged from emergency departments, 18
thyrotoxicosis-induced, 49
Heart transplantation African Americans vs. Caucasians, 437
antibody development risk, 434
beta blockers to lower heart rate after, 436
Cyclex score in preventing the development of circulating antibodies after, 198
donor height vs. weight, 196
natural history of pericardial effusion after, 433
toxoplasmal serology and outcomes after, 47
Heart-kidney transplant, benefits in immune responses, 46
Heart shock protein 72, chaperoned function of, in gastroenterological cancers, 248
Hemimegalencephaly, and extensive capillary malformations in a newborn with chromosome 19p13.11 deletion, 297
Hemoglobin (Hb), trend accuracy of pulse cooximetry hemoglobin during surgery, 318
Hepatitis C infection, prevention by safe tattoo practices, 64
Hepatocellular carcinoma cells, cordycepin induces tumor cell death, ERKs and MTOR mediated pathways, 398
Hepatocyte growth factor, stimulates fetal sheep alveolar type II cell, in experimental bronchopulmonary dysplasia, 31, 171
Herpes simplex virus (HSV), identify, characteristics of infants, 458
Herpes zoster oticus, case report of, 259
Heterotaxy syndrome, in one twin of a monochorionic monoamniotic pair, 234
Hierarchical representations, for lung nodule detection in chest computer tomography, 442
High fat diet (HFD), maternal impact of, on fetal skeletal muscle fiber, 468
High-school setting, interactive peer-to-peer intervention in, 55
HIPIP2B effects, of fetal pancreatic progenitor cells, 377
Histone modifications altered in renal cortex, of ventilated preterm lambs, 467
in cortical white matter at 3d of ventilation, 228
HIV-positive adolescents, tuberculosis diagnostic methods comparison with, 257
Hospital length of stay (H-LOS), acute care surgeons’ impact on patients with operative cardiac injuries, 330
Hospitalization rates, neonatal abstinence syndrome, standardizing infant post-oncologic therapy guideline implementation, for decreases length of stay, 305
Human induced pluripotent stem cells, revitalization of bone allograft with, 141
Human milk, dry eye treatment, 360
Human T-cell receptor cell line, evaluate influenza peptide presentation, 454
Human vaginal and seminal secretions, anti-inflammatory role in restitution of barrier function and resolution of inflammatory bowel disease, 210
Human T-cell receptor cell line, evaluate influenza peptide presentation, 454
Human-induced pluripotent stem cells, revitalization of bone allograft with, 141
Hypersensitivity pneumonitis (HP), lung transplant improves, at one year after, 136
Hypertension, risk factors for, 433
Hypereosinophilic syndrome (HES), presenting characteristics of infants, 458
Hyperbilirubinemia, treatment in neonates by cord blood bilirubin, 39
Hypersensitivity pneumonitis (HP), lung transplantation for, 133
Hypogonadism, biochemical diagnosis in older, obese men, 354
Hypoxia-inducible factor-1α (HIF-1α), of postnatal oligodendocyte development, 474
Hypoxic cerebral injury, antiangiogenesis drugs to prevent, 128
Hypoxic-ischemic encephalopathy (HIE) of neonatal seizures and long-term epilepsy, 131
randomized clinical trial of therapeutic hypothermia during transport for, 223

I
IFN-γ, anti-inflammatory role in restitution of barrier function and resolution of inflammatory bowel disease, 210
IL-10 receptor, anti-inflammatory role in restitution of barrier function and resolution of inflammatory bowel disease, 210

Serum vitamin D deficiency, post-arthroplasty infection in an in vivo mouse model, 319
Sertanes inhibit cytokine production, endoplasmic reticulum (ER) stress, role in experimental allergic asthma, 383
Statins inhibit cytokine production, endoplasmic reticulum (ER) stress, role in experimental allergic asthma, 383
Statins inhibit cytokine production, endoplasmic reticulum (ER) stress, role in experimental allergic asthma, 383
Statins inhibit cytokine production, endoplasmic reticulum (ER) stress, role in experimental allergic asthma, 383
Statins inhibit cytokine production, endoplasmic reticulum (ER) stress, role in experimental allergic asthma, 383
Staphylococcus aureus molecular detection and identification of, in airway samples, 293
Vitamin D deficiency, post-arthroplasty infection in an in vivo mouse model, 319
Subcutaneous adipose tissue, IUGR activates TGF-β1, 153
Simvastatin in asthma, mevalonate pathway regulates cox2 SECRETIN, human airway epithelial cells, 381
therapeutic role for asthma, 180
Single nucleotide polymorphism (SNP) microarrays, homozygous regions and targeted or exome sequencing on, 222
Sinonasal, analysis outcomes of surgical approaches for, 137
Skeletal muscle spasticity, results from satellite cell deficiency, 157, 430
SMAD2, molecular cloning and characterization of, from stem-like laryngeal carcinoma cells, 73
Smoking cessation, in pediatric clinical setting, 273
SNAPC1, mediates susceptibility to mycobacterial infection in zebrafish, 451
Social affect (SA) scores, characteristics of children with autism, 85
Soybean oil, intravenous low dose in preterm infants, neurodevelopment, 304
Spastic cerebral palsy, myofascial structural integration as complementary treatment improves gross motor function in children with, 90
Spatial and temporal protein expression, in palatogenesis, 400
Spiral fractures, in long bone, sheep femur model, 334
Splanchnic tissue oxygenation, in preterm infants with significant anemia, 463
Spondylothesis, traumatic posterior, LS/S1, 425
SPY imaging, use in post-mastectomy breast reconstruction patients, 153
Standardized communication techniques impact, on errors during neonatal resuscitation, 413
Staphylococcus aureus molecular detection and identification of, in airway samples, 293
...
Surgical outcomes, of pediatric renal transplants, 326
Surgical resection and radiotherapy, analysis of outcomes for, 448
Survival and outcomes, of 23 weeks gestation infants over time, 464
Symbiotic multi-species coevolution, in community context, simulation model for, 69
Systemic lupus erythematosus, thymic stromal lymphopoietin elevated in patients with, 28

Traditional Chinese Medicine (TCM), on chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Transcription factor AhR, mechanism of regulation of inflammatory arthritis by, 453
Transdifferentiated human fibroblasts, optimizing differentiation of neurons from, 473
Traumatic posterior spondylolisthesis, L5/S1, 425
Tricholaoma matsutake, optimization of ultrasound-assisted extraction conditions of polysaccharides from, 456
Tuberculosis, diagnostic methods comparison with HIV-positive adolescents, 257
Tumor imaging, with ratiometric peptides, 104
Twin analysis body mass index, C-reactive protein, 355
Typomorphic temperature, agreement with visceral temperature before, during and after maximal Bruce protocol, 241
Type 1 diabetes, effects of engagement survey on, 19
Umbilical venous catheter (UVC), 406
Ubiquitin C-terminal hydrolase-L1 (UCHL1), estrogen receptor alpha mediated effects of engagement survey on, 19
Ubiquitination, and relevance in, 10
UEC, 241
Ulnar collateral ligament, (UCL), reconstruction and associated elbow surgery, 335
Ultrasonic spirometer, development of, 382
Ultrasound-assisted extraction conditions of polyaniline, 12
Ultrasound-assisted extraction conditions of polyethylenimine, 12
UVB laser therapy, psoriasis exposures to, 255
Uterine inflammation, anti-inflammatory actions, 347
Urologic oncology surgery, antibiotic placement (CVC), in neonatal cardiac surgery patients, 390
Urban high school in Fresno, CA, reflections of, 429
Urban lifestyle, and relationship between alopecia areata, lichen planopilaris, and frontal fibrosing alopecia, 79
Thyroid disease, prevalence determination in patients with LPP, 75
Thyroid disease, and relationship between alopecia areata, lichen planopilaris, and frontal fibrosing alopecia, 79
Thyrotropin, insulin-like growth factor 1 and, 18
Thyrotropin, insulin-like growth factor 1, and local inflammatory activity in, 18
Thoracic radiologic anatomy, image mapped online modules, 364
Thrombosis with central venous catheter placement (CVC), in neonatal cardiac surgery patients, 390
Thyroid-stimulating hormone, elevated in patients with, 28
Thymic stromal lymphopoietin (TSLP), elevated in patients with systemic lupus erythematosus/thematoid arthritis, 28
Patient education, of breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
Patient education, of chemotoxicity effects, ethnically diverse breast cancer survivors, 440
