Southern Abstracts Subject Index

C

Candida, postmortem candidemia at university hospital, 422
Candida krusei, caused osteomyelitis and, antifungal medications for, 156
Candidemia, epidemiology of methicillin-resistant staphylococcus aureus bloodstream co-infection among patients with, 469
Cardiac tamponade, the presenting feature of systemic lupus erythematosus, 82
Cardio-ankle vascular index (CAVI), in children, 184
Cardiomyopathy, ischemic cerebrovascular accident as presentation for isolated non-compaction, 77
Cardiovascular (CV) dysfunction, relapsing-remitting multiple sclerosis in, 33
Cardiovascular factors, effect of high protein vs high carbohydrate diets on cardiovascular factors and, 434 as a marker of pulmonary hypertension, 197

Cervical dysplasia, in HIV positive women, 345
Cervical vaginal lavage (CVL), co-shedding of Epstein-Barr virus and human papillomavirus and the increased risk of, 460
Changing duty hours, impacts on resident performance, 348
Chemotherapy patient management, oncopathologists vs. hospitalists, Academic Medical Center, 529
Chemotherapy-induced neutropenia, time to antibiotic administration in children with, 463
Chest radiography, in inpatients with asthma, 232
Childhood obesity, changing perceptions in a memphis resident clinic, 39 developing culturally appropriate interventions addressing, 484
Children's of Alabama (COA), the value of a statewide educational campaign, 420
CHIP-seq, p53 unraveling distinct developmental functions, 391
Cholecystitis, clinical management during pregnancy, 324
Chromosome 4q deletion syndrome, and bilateral renal deficiency, infant with, 215
Chronic aldososteronism, myofibroblast secretion and pathologic remodeling, 2
Chronic anabolic steroid use, young female bodybuilder with ulcerative colitis and, 31
Chronic diarrhea, case of mistaken identity, a case report, 439
Chronic hyperkalemia, appearance of symptomatic bradyarrhythmia with junctional rhythm, 36
Chronic kidney disease (CKD), effects of high-dose cholecalciferol on serum markers of inflammation and immunity in, 478
progression in sickle cell anemia patients, 509 renal function in acute decompensated heart failure patients, 2 satellite cell proliferation, 400
Chronic lung diseases, pulmonary rehabilitation increases gait speed in patients with, 386
Chronic lymphocytic inflammation with pontine perivascular enhancement response to steroids (CLIPPERs) syndrome, 364
Chronic lymphocytic leukemia (CLL), case report, 114 fatal vasopressor syndrome in a patient with refractory, 80
Chronic obstructive pulmonary disease, factor associated with reintubation in patients with, 250 glucose levels and hospital outcomes in, 225
Cigarette smoke, induces systemic defects in cystic fibrosis transmembrane conductance regulator (CFTR) ion transport, 378
Ciprofloxacin, ciprofloxacin induced myelosuppression, 60
Clear cell carcinoma, a rare case of, 104 Lindahan, cause of, 304
Clinic-based weight loss program, motivation, self-efficacy, and weight loss, 521
Cocaine induced vasculitis, and hepatitis C arthropathy, a case report, 303
Coccidioidomycosis, in an immunocompetent man in northeast Florida, 473
Cohort study of medication adherence among older adults (CoSMO), medication adherence in older adults: a focus group study, 451
sex differences in barriers to antihypertensive medication adherence, 453
Cold turkey versus reduction before quitting, smoking cessation method efficacy, 523
Colonoscopy, strongyloidiasis hyper-infection syndrome and associated diffuse intestinal hemorrhage, 440
Common variable immune deficiency (CVID), identical twins discordant for common variable immunodeficiency, analysis by, 407
Community health workers (CHWs), improving access to care using community health workers on a mobile clinic, 455
Community-associated methicillin-resistant strains of Staphylococcus aureus (CA-MRSA), macrophage TNF response to VAN-treated, 339
Complementary and alternative medicine (CAM), a review of herbal and dietary supplements in CKD and ESRD, 487
Computed tomography (CT), late-onset presentation of coarctation, 34
Congenital diaphragmatic hernia, PAO2 in relation to outcome in, 210
Congenital heart disease (CHD), adolescents and adults with congenital heart disease in U.S. emergency departments and hospitals, 449 clinical presentation of, 180
Congenital infection, a small for gestational age newborn with microcephaly, an uncommon case of, 131
Congenital nephrotic syndrome mutation in WT1 gene, with heart failure, 167 with WT1 mutation and hypertensive crisis, treatment conundrum in newborn, 264
Constrictive pericarditis, a striking case of, 35
Continuous positive airway pressure (CPAP), risk factors for the severity, 424
Coronary vascular endothelial tetrahydrobiopterin, protects cardiomyocytes against hypoxia-reoxygenation injury, 268
Corticosteroid, a gang of vicious ulcers, 38
Cortisol, an unusual cause of hyponatremia, 21
Corynebacterium acetylkalytoacetylate, bacteremia in a hemodialysis patient, 255
Cosleeping, causes sudden infant death, 165
Counseling women (40–49 yrs) regarding breast cancer screening, education for provider in delivering patient-centered care, 572
Crackles, robotic telemedicine: testing in a simulation setting, 446
Craniofacial dysmorphism, identification of, 350
Creascentic glomerulonephritis (GN) in a child with X-linked agammaglobulinemia (XLA), 239 in pediatric patient, 27
Croup, inpatient hospitalizations for, 231
Cryptococcal antigenemia, death or loss in a child with X-linked agammaglobulinemia (XLA), 239

352

© 2013 The American Federation for Medical Research
Cryptococcosis newformans, clinical management of, 148
Cuffed endotracheal tubes (ETTs), pressures in mannequins during helicopter transport, 284
Cultural competency training for medical students based on web, randomized trial, 511
Cushing's syndrome, in a carpenter, 140
Cyclin-D1 expression, late onset post transplant lymphoproliferative disorder, 461
Cystic fibrosis
adults, gastro-esophageal reflux therapy on sputum microbiology in, 216
in trends in fat-soluble vitamin intakes and blood concentrations in adult subjects with, 479
Cystic lung disease, clinical management of, 238

D
D0 germline, sequence on constraining tcr metabolic modulation of intestinal endothelial cell adhesion molecules, 441
Dedicated spectrum microbiology in, 216
Diploid/triploid moscicism, in a set of
Diffusing capacity in smoking and obesity, 385
Dialysis with catheter, is not risk for
Diagnosis mimics Guillian-Barre syndrome, 59
Diabetic patients, (pro)renin receptor ((P)RR) with type 1 diabetes mellitus, 308
insulin-like growth factor-1 prevents premature cell senescence, 402
Dexamethasone (Dex), growth factor-I fails to protect against dexamethasone-induced neurodegeneration in neonatal rats, 251
Dexmedetomidine, pronounced decreases in arterial blood pressure and renal hemodynamics, 499
Diabetes mellitus in antipsychotic-treated patients admitted to acute psychiatric units, impact of, 431
do double edged sword, 477
endothelial dysfunction and inflammation among adolescents with, 308
proteome analysis of spleen leukocytes nuclei from non-obese diabetic mice, 427
Diabetic patients, (pro)renin receptor (P(RR)) levels are decreased in urine, 240
Diagnosis mimics Guillian-Barre syndrome, 59
Diagnostic error, in care of simulated pediatric inpatients, 349
Dialysis with catheter, is not risk for bacteremia, in HIV positive dialysis patients, 242
Diffuse large B cell lymphoma (DLBL), described as a T cell histiocyte rich B cell lymphoma, 129
Diffusing capacity in smoking and obesity, 385
Dimethylosulfoxide, protective agent against kidney ischemic-reperfusion injury, 388
Diploid/triploid moccisism, in a set of monocytezic-dzygotic twins, 170
Distal partial trisomy, expanding phenotype of, 181
DKC1 gene mutation, dyskeratosis congenita due to a rare, 124
Dopamine, renal function in acute decompensated heart failure patients, 1
Double edged sword, tuberculosis and diabetes mellitus in Georgia, USA, 477
Double-hit lymphoma, 111
Drug induced hypersensitivity syndrome (DIHS), with bilateral pleural effusions, 15
Duct renn synthesis, the role of endothelin-1 in collecting and secretion of, 395
Diodeal diffuse large B cell lymphoma, 121
Dyshomeostasis, incidence and severity of on admission to trauma units, 309
Dyskeratosis congenita, due to a rare DKC1 gene mutation, 124

E
Early life stress (ELS), induces angiotensin II-mediated diastolic dysfunction in adult male rats, 311
Early recurrence of left atrial myxoma, 73
Echocardiography
placement errors in, 172
pulmonary artery systolic pressure by, in outpatients with heart failure, 305
Echocardiography, where do broken hearts go...Louisiana, 81
Eikenella facetitis, fascinatingly fastidious case of, 133
Ejection fraction (EF), a reversible cause of dilated cardiomyopathy, 17
Elderly patient, an atypical clinical presentation of an, 101
Electrocardiogram (ECC) appearance of symptomatic bradycardia with junctional rhythm, 36
a reversible cause of dilated cardiomyopathy, 17
Electron dense deposits (EDD), in pediatric hemodynamics, 499
End-stage renal disease (ESRD), increased risk of fistula failure in patients with, 187
Esophageal achalasia, esophageal perforation post pneumatic dilation for achalasia managed by esophageal stenting, 437
Esophageal perforation, post pneumatic dilation for achalasia managed by esophageal stenting, 437
ESRD, increased risk of fistula failure in incident hemodialysis patients, 397
Ethical dilemma, when a patient refuses life saving therapy, 358
Exclusive human milk (EHM), to evaluate demographic and clinical characteristics, 214
External medication history (EMH) with patient care transformation, game changer, 520
Extracranial giant cell arteritis, the pulseless clinic patient, 415
Extremly low birth weight infants (ELBWI) hypercapnic acidemia as risk, for severe intraventricular hemorrhage in, 193
pulmonary and neurodevelopmental effects, of hydrocortisone vs dexamethasone in, 204
Exubatation failure, predictive value of fluid balance on, 387

F
Factor XIII, consumption during cardiopulmonary bypass surgery, 331
Faculty development with innovative approach, Research and Innovations in Medical Education (RIME) week, 515
Failure to thrive (FTT), an infant with failure to thrive and poor appetite treated successfully with, 47
Family health history (FHH) usability and clinical decision support tool, patients and primary care providers, 526
Fetal vaso-occlusive syncope, patient with refractory idiopathic thrombocytopenic purpura, 80
Febrile infection-related epilepsy syndrome (FIRES), in a previously healthy child, 219
Febrile neutropenia (FN), time to antibiotic administration in children with fever and chemotherapy-induced neutropenia, 463
Fetal baboons, maternal environment alters pancreatic endocrine cell development in, 205
Fetal hemoglobin, inducing drugs, to treat sickle cell disease, 326
Fever in an international traveler, 145
time to antibiotic administration in children with, 463
Fibillary glomerulonephritis, end stage renal disease due to, in a four year old child, 175
Floating thrombus, ascending aorta in, 70
Fluoroscopy, a striking case of constrictive pericarditis, 35
Focal segmental glomerular sclerosis (FSGS), with complement 3 deposition and glomerular basement membrane thinning, 265
Follicular thyroid carcinoma, presenting with endobronchial metastases, 96
Food allergic reactions, among adults and children of Asian Indian origin, 301
Fulminant Lewy body disease, clinical
Follicular thyroid carcinoma, presenting with endobronchial metastases, 96
Food allergic reactions, among adults and children of Asian Indian origin, 301
Fulminant Lewy body disease, clinical pathology of, 363
Functional gastrointestinal disorders, dominate
Folic acid, role of in prevention and treatment of neural tube defects, 24
Fournier gangrene, pediatric
Functional gastrointestinal disorders, dominate
Hemoglobin A1c

G

Gastrointestinal sarcoidosis, with pneumonitis cystoides intestinalis, 6
Gastrointestinal stromal tumors (GISTs), 113
Gastro-pericardial fistula, a rare late post-fundoplication complication presenting with pneumatocraphic, 435
Gastroesophageal reflux (GERD) therapy, on spumt microbiology in cystic fibrosis adults, 216
Gastroesophageal fistula, uncommon complication for common surgical procedure, 68
Gastrointestinal obstruction, gastrointestinal obstruction and SMA syndrome, 29
Gastric polyp, case of mistaken identity, a case report, 439
Gitelman syndrome, diagnosis and treatment of, 246
Glucose metabolism, evidence of hepatic insulin resistance and molecular developmental differences in non-human primates, 491
Glucose, real-time tele-monitoring as adjunct to the management of type 2 diabetes in primary care, 90
Glutaric academia type 1 (GA-1), clinical management for, 168
Glyceraldehyde-3-phosphate dehydrogenase, potential role in stabilization of atherosclerotic plaque, 404
Glycosylation, thrombotic events in congenital disorders of, 178
Goldenhar's Syndrome, renal ultrasound for, 171
Gonorrhea and Chlamydia (GC/C), prevalence and screening in adolescents, 286
G Paracoccidioides brasiliensis, next generation group a streptococcal vaccines, 468
Group B streptococcal sepsis ampicillin and azithromycin, improved outcomes in mouse model of, 338
Gastrointestinal stromal tumors (GISTs), 113
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal obstruction, gastrointestinal obstruction and SMA syndrome, 29
Gastric polyp, case of mistaken identity, a case report, 439
Gitelman syndrome, diagnosis and treatment of, 246
Glucose metabolism, evidence of hepatic insulin resistance and molecular developmental differences in non-human primates, 491
Glucose, real-time tele-monitoring as adjunct to the management of type 2 diabetes in primary care, 90
Glutaric academia type 1 (GA-1), clinical management for, 168
Glyceraldehyde-3-phosphate dehydrogenase, potential role in stabilization of atherosclerotic plaque, 404
Glycosylation, thrombotic events in congenital disorders of, 178
Goldenhar's Syndrome, renal ultrasound for, 171
Gonorrhea and Chlamydia (GC/C), prevalence and screening in adolescents, 286
G Paracoccidioides brasiliensis, next generation group a streptococcal vaccines, 468
Group B streptococcal sepsis ampicillin and azithromycin, improved outcomes in mouse model of, 338
Gastrointestinal stromal tumors (GISTs), 113
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal obstruction, gastrointestinal obstruction and SMA syndrome, 29
Gastric polyp, case of mistaken identity, a case report, 439
Gitelman syndrome, diagnosis and treatment of, 246
Glucose metabolism, evidence of hepatic insulin resistance and molecular developmental differences in non-human primates, 491
Glucose, real-time tele-monitoring as adjunct to the management of type 2 diabetes in primary care, 90
Glutaric academia type 1 (GA-1), clinical management for, 168
Glyceraldehyde-3-phosphate dehydrogenase, potential role in stabilization of atherosclerotic plaque, 404
Glycosylation, thrombotic events in congenital disorders of, 178
Goldenhar's Syndrome, renal ultrasound for, 171
Gonorrhea and Chlamydia (GC/C), prevalence and screening in adolescents, 286
G Paracoccidioides brasiliensis, next generation group a streptococcal vaccines, 468
Group B streptococcal sepsis ampicillin and azithromycin, improved outcomes in mouse model of, 338
Gastrointestinal stromal tumors (GISTs), 113
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal obstruction, gastrointestinal obstruction and SMA syndrome, 29
Gastric polyp, case of mistaken identity, a case report, 439
Gitelman syndrome, diagnosis and treatment of, 246
Glucose metabolism, evidence of hepatic insulin resistance and molecular developmental differences in non-human primates, 491
Glucose, real-time tele-monitoring as adjunct to the management of type 2 diabetes in primary care, 90
Glutaric academia type 1 (GA-1), clinical management for, 168
Glyceraldehyde-3-phosphate dehydrogenase, potential role in stabilization of atherosclerotic plaque, 404
Glycosylation, thrombotic events in congenital disorders of, 178
Goldenhar's Syndrome, renal ultrasound for, 171
Gonorrhea and Chlamydia (GC/C), prevalence and screening in adolescents, 286
G Paracoccidioides brasiliensis, next generation group a streptococcal vaccines, 468
Group B streptococcal sepsis ampicillin and azithromycin, improved outcomes in mouse model of, 338
Gastrointestinal stromal tumors (GISTs), 113
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal hemorrhage, clinical decision support tool, patients and response theory, 518
Gastrointestinal obstruction, gastrointestinal obstruction and SMA syndrome, 29
mediated inhibition, of PU.1 gene expression in the alveolar epithelium, 235 positive children, family adoption in, 169 Human milk (HM) analysis, comprehensive to nutritional management, 208 Human papillomavirus (HPV) the development of anal cancer, 459 and Epstein-Barr virus, in development of long-term cervical dysplasia in HIV-positive women, 346 the increased risk of cervical dysplasia, co-shedding of, 460 Hyperbaric oxygen therapy (HBOT), in decubitus ulcers treatment, 187 Hyperbilirubinemia, infant all presenting as, 117 Hypercalcemia, after subcutaneous fat necrosis in a newborn, 89 Hypercapnic acidemia, risk for severe intraventricular hemorrhage, 193 Hyperglycemia in antipsychotic-treated patients admitted to acute psychiatric units, impact of, 431 defining a novel, treatable inborn error with phosphoglucomutase 1 deficiency, 425 peripheral insulin resistance and impaired insulin signaling contribute to, 493 Hyperkalemia, appearance of symptomatic bradycardia with junctional rhythm, 36 Hypertension, HIV-infected children and adolescents, 42 Hypertensive heart disease (HHD), Cardiomyopathy, 77 Hypertensive heart disease, antioxidant properties of neviolol confer cardioprotection in, 269 Hypocalcemia, a reversible cause of dilated cardiomyopathy, 17 Hypoponatremia desmopression for overcorrection, 254 etiology determination in a patient receiving chemotheraphy, for childhood brain tumor, 334 patients with cancer, randomized, double blind, placebo-controlled trial, 4501 Hypertriglyceridemia, peroxisomal beta-oxidation (PBOX) axis, the effects of perinatal oxycodone exposure on the limbic system and, 496 Hypothyroidism, cognitive features of, 94 Hypoxia-induced pulmonary hypertension, smooth muscle-targeted PPAR gamma overexpression attenuates, 384

**I**

Idiopathic collapsing focal segmental glomerulosclerosis (FSGS), in pediatric patient with attention deficit hyperactivity and oppositional defiant disorders, 48 Idiopathic thrombocytopenic purpura (ITP), fatal vasodopressor syncope in a patient with refractory, 80 IGF-1, insulin-like growth factor-1 prevents premature cell senescence, 402 IgG4 a case of abdominal pain resulting in the diagnosis of, 411 related testicular pseudotumor, 119 IgM, characterization subsets in CVID and RESPI patients, 408 IL-21, promotes a germinal center reaction by regulating TFR/TFH in autoimmune BXD2 mice, 295 Immunosuppression, a neonate with a novel FOXP3 mutation, 269 Immunofluorescence study, demonstrating the internalization and trafficking of guanylyl (guanylate) cyclase/natriuretic peptide receptor-A in human embryonic kidney-293 cells, 405 Immunoglobulin (Ig), identical twins discordant for common variable immunodeficiency, analysis by, 407 Immunopathogenesis, proteome analysis of spleen leukocytes nuclei from non-obese diabetic mice, 427 Infantile hypertrophic pyloric stenosis, physical examination obsolete for making the diagnosis, 43 Infants, the effects of protein intake on body fat percentage in, 481 Influenza, immunization of healthcare workers in Louisiana, 423 Insulin, growth factor-I fails to protect against dexamethasone-induced neurodegeneration in neonatal rats, 492 Insulin resistance (IR), role of pten in TNF-a induced insulin resistance, 498 Insulin-like growth factor, increases collagen-1a and contractile protein expression, in vascular smooth muscle, 314 Inter-alpha inhibitor protein, reduces the toxic effects of extracellular histones, 369 Interleukin-10, reduces NEC incidence by blocking intestinal pro-inflammatory cytokine production, 371 Internal medicine competencies, in ambulatory team meeting, 514 IM1 patient centered medical home prospective before and after evaluation, 418 residents with curriculum innovation, board review gamification, 513 Internal retrospective comparison group (IRC), real-time tele-monitoring as adjunct to the management of type 2 diabetes in primary care, 90 Intracellular adhesion molecule-1 (ICAM-1), metabolic modulation of intestinal endothelial cell adhesion molecules, 441 Intrapericardial hemorrhage, factors affecting neurodevelopmental outcomes in preterm infants, 488 Intrarenal activation of renin-angiotensin system (RAS) with urinary renin (uRen) marker, renin levels augmented in diabetic and hypertensive patients, 505 Intussusception, an atypical case in a 4-year-old, 100 Ischemia-reperfusion model, protective agent against kidney ischemic-reperfusion injury, 388 Ischemic cerebrovascular accident, presentation for isolated non-compaction cardiomyopathy, 77 Isolated arterial tortuosity, in a newborn with hypertension, 164 Isoniazid preventative therapy, in an HIV clinic in Addis Ababa, Ethiopia, 467

**J**

Jehovah's witness, a case of hemophagocytic lymphohistiocytosis in a, 107 Jet-rihualized medications, for premature infants on a vent, 276 Junctional rhythm, acute or chronic hyperkalemia and the appearance of symptomatic bradycardia with, 36

**K**

Kawasaki disease (KD) vs. a control population, 41 erythema multiforme presenting as, 28 patient with a retropharyngeal abscess, 136 in a patient with a retropharyngeal abscess, 136 proximity to major bodies of water and, 294 Kernig's and Brudzinski's signs, in an immunocompetent man in northeast Florida, 472 Kidney, a mild hydrenephrosis and tubular acidosis in, 171 Kidney ischemic-reperfusion injury, protective agent against, 388 Kidney stones, clinical management of, 149 Kidney transplant patients, literacy rates among, 263 viral infection, as a risk factor for, delayed graft function in, 248 Kidney transplants, vascular access management in patients with, 398 Knot on the head, the rare occurrence of metastatic colon cancer presenting as temporal swelling and headache, 108

**L**

Lactobacillus rhamnosus GG, increases intestinal epithelium cell proliferation in immature mice, 368 Lactic acidemia, discriminatory keys in the metabolic diagnosis of, 430 Left anterior descending coronary artery (LAD), large coronary artery fistula, 7 Left atrial mass, a tuberculoma presenting as, a, 72 Left upper quadrant pain, a 36-year-old man with anemia, thrombocytopenia and, 123 Lemiere's syndrome, in young adults, 150 Leydig cell tumor, a case of mistaken identity, 103 Life-threatening congenital heart disease, late presentation of, 180 Limbic system, the effects of perinatal oxycodone exposure on the hypothalamic-pituitary-adrenal (HPA) axis, 496 Linear IgA bullous dermatosis, vancomycin induced, 139 Linzoloid, induced black hairy tongue, 147 Lingering pathway, for a posterior circulation stroke, 360 Lipase, one order of acute pancreatitis, 443 Liraglutide, a new consideration when related testicular pseudotumor, 119 Linagliptin, a new DPP-4 inhibitor, for isolated non-compaction cardiomyopathy, 77 Lissencephaly, in neonate with a peroxisomal kidney-293 cells, 405 Lymphocytosis in a, 107 Lung transplant rejection, Nocardia cyriacigeorgica in, 137

© 2013 The American Federation for Medical Research
Loeys-Dietz syndrome, diagnosis in neonatal period, 183
Louisiana, influenza immunization of healthcare workers in, 423
Lower extremity fractures, management in men with spinal cord injuries, 297
Lower respiratory tract infections, due to Mounier-Kuhn syndrome, 217
Luefert report; assay, p53 regulon unarrals distinct developmental functions, 391
Lumbosacral osteomyelitis, antifungal medications for, 156
Lung disease, in an adolescent, 227
Lung dysfunction, in patients with sickle cell disease, 327
Lupus nephritis, role of toll-like receptors and reactive oxygen species, 396
Lymphocytic choriomeningitis virus (LCMV), a small for gestational age newborn with microcephaly, an uncommon case of congenital infection, 131
Lymphoid interstitial pneumonia (LIP), clinical management of, 238

M
Magnetic resonance imaging (MRI) late-onset presentation of coarctation, 34 measuring liver fatness in overweight and obese children with, 480 Malignant ascites, an atypical initial presentation for pancreatic adenocarcinoma, 436
Malignant hypertension
PDGF receptor antagonism prevents the increase in urinary angiotensin II excretion, 389 with thrombotic microangiopathy associated with primary hyperaldosteronism in a patient on peritoneal dialysis, 256 Massive cardiac hemangioma, 71 Maternal and infant complications for hispanic women, trends in, 203 Medical school curriculum with lesbian, gay, bisexual and transgender (LGBT) content, 510 Membranous nephropathy, secondary to syphilis, 260 Mental test score (MTS), a randomized, double blind, placebo-controlled trial of, 450 Merkel cell carcinoma clinical management of, 328 a skin nodule not to be ignored: case report of, 125 Mesenteric lymphangioma, presenting as sepsis and bilious emesis in neonate, 46 Metabolic dysfunction, subjects challenged Neurodevelopmental impairment (NDI), the effect of continuous positive airway pressure therapy on nightmares in a rat model, 370 Obesity care, in primary care setting, patient and provider perceptions, 522 Obesity, in early childhood diabetes, 86 Obstructive sleep apnea (OSA), risk factors for the severity, 424 effect of continuous positive airway pressure therapy on nightmares in patients with, 379 Octogenarians survival and discharge rates, undergoing coronary revascularization for acute myocardial infarction, 281 Ocular myasthenia gravis, progression of, in pediatric patient, 179 Oncologists vs. hospitalists, chemotherapy patient management, Academic Medical Center, 529

N
N-acetyl cysteine in management of kidney damage, 466 Microarray, p53 regulon unarrals distinct developmental functions, 391 Migraine, from a TIA in pediatric population, 361 Mock codes, in pediatrics residency, 353 Monozygotic-dizygotic twins, diploid/triploid moscismin in a set of, 170 Motor vehicle crashes (MVC), trends in alabama teen driving death and injury, 421 Mounier-Kuhn syndrome, recurrent lower respiratory tract infections due to, 217 mRNA expression, profiling of human pancreatic islets from non-diabetic auto-antibody positive vs antibody negative individuals, 433 mrg genes, next generation group a streptococcal vaccines, 468 Muckle-Wells syndrome, and secondary amyloidosis (AA) with nephropathy, case report of, 259 Mucosal vascular address cell adhesion molecule (MAdCAM-1), metabolic modulation of intestinal endothelial cell adhesion molecules, 481 Multicystic dysplastic kidney (MCDK), clinical characterization of a cohort of children with, 50 Multifocal small vessel ischemia, pathologic regulation of involving histone deacetylase, in U.S. emergency departments and hospitals, 449 Murphy’s sign, one order of acute pancreatitis, please … hold the enzymes, 443 Muscle regeneration, satellite cell proliferation, 400 Myasthenia gravis in an adolescent, a case report, 365 progression to generalized, in pediatric patient, 179 Myofibroblast, lung fibroblast-myofibroblast differentiation in response to TGFβ1, 382 N-acetyl cysteine, management of methotrexate induced kidney damage in, 466 Naelgeria fowleri, causing hemorrhagic meningoencephalitis, 174 Nationwide emergency department sample (NEDS), adolescents and adults with congenital heart disease in U.S. emergency departments and hospitals, 449 Nationwide inpatient sample (NIS), adolescents and adults with congenital heart disease in U.S. emergency departments and hospitals, 449 Natruretic peptide receptor-a gene, epigenetic regulation of involving histone deacetylase, in mouse mesangial cells, 312 Nebivolol, cardioprotection in hypertensive heart disease, 269 Necrobiosis lipiodica diabeticorum, e clue to a diagnosis of diabetes mellitus in youth, 53 Necrotizing enterocolitis, pulmonary surfactant protein a reduces adverse outcomes in a rat pup model of, 372 Neonatal and adult neutrophils, differences between due to maturational development, 375 Neonatal Gran-negative sepsis, T cells role in a model of, 370 Neutrogen, mesenteric lymphangioma presenting as sepsis and bilious emesis in, 46 Nephrogenic systemic fibrosis, redox sensitivity, dermal CCR7-expressing fibrocytes, and evidence of pulmonary involvement in a rat model, 271, 393 Neurodevelopmental impairment (NDI), the incidence and impact of CMV infection in preterm infants, 490 Newborns advanced resuscitation measures in ≥34 week gestational age, 198 with bilateral nephromegaly, 176 with posterior fossa abnormality, 195 Nissen’s funduplication (FP), a rare late post-funduplication complication presenting with, 435 Nocardia cyriacigeorgica, in a liver transplant recipient with chronic rejection, 137 Nocturnal gastro esophageal reflux (nGER), polysomnographic characteristics in obstructive sleep apnea patients, 222 Nominal group technique (NGT), for advanced physical diagnosis course evaluation, 512 Non-alcoholic steatohepatitis (NASH), response to vitamin E for, 316 Non-Hodgkin’s lymphoma (NHL) disproportionate incident cases of, 476 not a paraneoplastic process, 413 recurrent intussusception due to, 16 a 10-year retrospective study of lymphoma in the monoclonal antibodies era, 464 Non-metabolic syndrome, effect of diet composition, 92 Non-obese diabetic (NOD), proteome analysis of spleen leukocytes nuclei from non-obese diabetic mice, 427 Non-small cell lung cancer, a case of cardiac involvement by direct invasion, 112 Nontuberculous mycobacterial infections in hemodialysis patients, 471 Normal breath, robotic telemedicine: testing in a simulation setting, 446 Npr1 gene, regulatory action of all-trans retinoic acid and sodium butyrate, in modulation of cardiac remodeling in, 313 Nrf2, HIV -mediated inhibition of PU.1 gene expression in alveolar epithelium, 235 Nutritionally variant streptococci (NVS), pneumonia caused by, 236

O
Obesity care, in primary care setting, patient and provider perceptions, 522 Obesity, in early childhood diabetes, 86 Obstructive sleep apnea (OSA) risk factors for the severity, 424 effect of continuous positive airway pressure therapy on nightmares in patients with, 379 Octogenarians survival and discharge rates, undergoing coronary revascularization for acute myocardial infarction, 281 Ocular myasthenia gravis, progression of, in pediatric patient, 179 Oncologists vs. hospitalists, chemotherapy patient management, Academic Medical Center, 529
Opportunistic infections (OIs), antiretroviral therapy for, 155
Oral antioxidants, improve endothelial function in patients with cystic fibrosis, 291
Oral glucose tolerance test (OGTT), low positive predictive value for diagnosis of prediabetes, 426
Ordinary pneumonia, 62
Orthopedic surgery, I’m just a GI fellow, but I know why you have joint pain, 444
Osmolality and refractory index (RI), values of gastric aspirates in an infants, having feeding intolerance, 373
Osteopetrosis, mimicking osseous metastases in a patient with stage I renal cell carcinoma, 127
Osteoporosis screening, in men, 302
Overall survival (OS), a 10-year retrospective study of lymphoma in the monoclonal antibodies era, 464

Pediatric emergency department, concomitant osteomyelitis, sepsis, and meningitis presenting to, 224
Pediatric emergency medicine, physicians to identify anatomic landmarks with ultrasound prior to lumbar puncture in a simulated obese model, 273
Pediatric endotracheal tube cuff, pressures in mannequins during helicopter transport, 284
Pediatric inpatients, diagnostic error in care of, 349
Pediatric kidney transplant surveillance biopsy, benefits of, 241
Pediatric phenochromocytomas in mother and daughter, 54
Pediatric resident competency, examination with simulated patients following a motivational interviewing training module, 354
Pediatric skull fractures, risk factors for admission and prolonged length of stay, 58
Pediatricians, early childhood health promotion in hispanic communities, 44
Pediatrics residency, mock codes in, 354
Pericardial effusion due to nickel allergy, 410
Persistent pneumonia, in an infant, 142
Pentasa treatment, for proctocolitis due to MPI, 319
Periactin, an infant with failure to thrive and poor appetite treated successfully with, 47
Peripheral blood leukocytes (PBL), subjects challenged with in vivo endotoxin exhibit novel changes in AMPK and HIF-1 expression, 429
Peripheral pulse pressure (pPP), race and sex differences in central to peripheral hemodynamic patterns, 4
Persistent hypomagnesemia, in patients referred with cardiac arrhythmias, causes of, 399
Persistent pneumonia, in an infant, 142
Phenotypic B cells, identical twins discordant for common variable immunodeficiency, analysis by, 407
Phenylalanine, in L-cells of newborn pigs, effects of, 349
Phenylalanine hydroxylase (PHX), overexpression

P3

**qPCR, p53 regulon unravels distinct developmental functions, 391**

Qualitative methods and item response theory, for development of homeless primary care assessment survey, 518

Posterior fossa abnormality, newborn with, 195
Posterior reversible encephalopathy syndrome (PRES), in an HIV positive patient, 161
Post-traumatic stress disorder, effect of continuous positive airway pressure therapy on nightmares in patients with, 379
PPAR gamma (PPARγ), overexpression attenuates hypoxia-induced pulmonary hypertension in mice, 272, 384
Prediction of renal functions, in type 2 diabetic patients using urine haptoglobin to creatinine ratio (HCR), 506
Primary care physician (PCP), induced reversible complete heart block in a patient with prior mobitz type I second degree block, 83
Primary cutaneous mucormycosis, in a carpenter, 140
Primary plasma cell leukemia, 110
Proctocolitis, due to MPI, Pentasa treatment for, 319
Prognostic biomarker of acute kidney injury (AKI), urinary angiotensinogen, 504
Prolonged hypercapnia, cerebrovascular reactivity in newborn pigs, effects of, 489
Promyelocytic leukemia protein (PML), TGF-beta1 induces senescence in vitro and in vivo by up-regulating, 380
Prorenin, levels in urine of diabetes patients, during RAS activation, 247
Prorenin receptor ([P]RR) levels are decreased, in urine of diabetic patients, 240
targeted inactivation of, in ureteric bud inhibits ureteric bud branching morphogenesis, 279
Proteinuria, selected characteristics and the association of, 470
Pseudohypokalemia clinical management for, 261 in a patient with acute myelogenous leukemia, 249
Pseudomonas lung abscesses, unusual cause for cavitary lung lesion, 233
Pseudomonas aeruginosa, clinical management of, 138
Pu.1 gene expression, in the alveolar epithelium, HIV-mediated inhibition of, 235
Pulmonary and neurodevelopmental effects, of hydrocortisone vs dexamethasone in ELWBI, 204
Pulmonary artery systolic pressure, by echocardiography, in outpatients with heart failure, 305
Pulmonary surfactant protein, a reduces adverse outcomes in a rat pup model of necrotizing enterocolitis, 372
Pulmonary thromboembolism (PTE), chest pain with a twist, 18
Pulse wave velocity, healthy overweight/obese african americans association, 55
Pyridium, induced acute renal injury, 267

© 2013 The American Federation for Medical Research
Quantity and integrity (RIN), profiling of human pancreatic islets from non-diabetic auto-antibody positive vs antibody negative individuals, 433

Rapid antigen streptococcus test (RAST), meta-analysis, 527
Rapid infant weight gain (RIWG), factors associated with, 482
Rapidly reversible cardiomyopathy, 61
Recurrent aseptic meningitis (RAM), a case of Mollaret’s meningitis, 12
Recurrent pancreatitis, during maintenance chemotherapy for pre-B acute lymphoblastic leukemia, 455
Refractory status epilepticus, in a previously healthy child, 219
Renal cell carcinoma osteopetrosis mimicking osseous metastases in a patient with stage I, 127
Renal failure, enalapril induced, in a preterm infant, 185
Renin-angiotensin system (RAS), proenin levels in urine of diabetes patients, 247
Resident educational tool, improve parental understanding of retinopathy of prematurity, 199
Resident physicians training in New Orleans with use of interpreters, 519
Residual renal function, maintenance with, low dose immunosuppressive therapy in peritoneal dialysis patient with allograft failure, 252
Retinal muller cell, surfactant protein A impairs retinal endothelial cell function, 277
Retinopathy of prematurity, resident educational tool improve parental understanding of, 199
Retropnephrogenal abscess (RPA), Kawasaki disease, in a patient with, 136
Retrospective cohort study, resident academic performance and patient outcomes during code blues and rapid responses, 445
Reverse sequence algorithm, cost analysis of laboratory testing for syphilis screening after institution of, 478
Reversion-inducing-cysteine-rich protein with kazal motifs (RECK), in lung fibrosis, 220
Rhabdomyolysis, due to carnitine palmitoyltransferase II deficiency, 438
Risk factor determination, in ≥4 week gestational age newborns, 198
Robotic telemedicine, testing in a simulation setting, 446
ROTEM assay, to distinguish coagulation factor inhibitors, from lupus anticoagulants, 330
Rumination syndrome and dental erosions in children, 50
Sebaceous adenocarcinoma, survival analysis of 2385 cases, 465
Secondary amyloidosis (AA), with nephropathy, Muckle-Wells syndrome, and, case report of, 259
Secondary hyperhomocysteinemia, in a preteen NICU graduate, 163
Septic emboli not caused by endocarditis, 130
Septic shock, caused by Hafnia alvei urosepsis in the United States, 159
Septo optic dysplasia, poor sucking as a presentation of, 188
Serotonin reuptake inhibitor (SSRI), bupropion insufflation leads to seizures, 13
Serum amylnase, one order of acute pancreatitis, please … hold the enzymes, 443
Serum bicarbonate, predictors of resolution in patients with diabetic ketoacidosis, 432
Severe congenital anomalies, associated with methotrexate and misoprostol failed induced abortion, 191
Severe hypoglycemia, incidence associated with hospitalized patients, 524
Severe hyponatremia, a case of beer potomania, 65
Severe leg pain and profound reversible acidemia, 64
Short bowel syndrome, gastrorschisis and, dysmotility and feeding management in infants with, 318
Shortening fraction (SF), a reversible cause of dilated cardiomyopathy, 17
Sickle cell amnesia, patients with chronic kidney disease (CKD) progression, 509
Sickle cell disease fetal hemoglobin inducing drugs to treat, 326
lung dysfunction in patients with, 327 screening for asymptomatic chlamydia in patients with, 40
Sickle cell medical home strategy, 517
Single pediatric donor kidneys transplanted in adult recipients, long-term graft survival improvement, renin-angiotensin system inhibition, 501
Sinus of valsalva aneurysm rupture, an unusual presentation, 69
Sjogren’s syndrome, unusual manifestation of, 221
Skin and soft tissue infections, blood cultures in evaluation of children with, 274
Sleep apnea, risk factors for the severity of, 424
SMA syndrome, gastrointestinal obstruction and SMA syndrome, 29
Smoking cessation method efficacy, cold turkey versus reduction before quitting, 523
Snorting, bupropion insufflation leads to seizures, 13
Social media tools, to reduce stress and improve parental understanding of retinopathy of prematurity, in patient with, 126
Takotsubo cardiomyopathy. See Stress-induced cardiomyopathy, clinical management of
T-cell acute lymphoblastic leukemia chlorodex plexus papilloma complication, 115 complicated by a hemorrhagic stroke and hemophagocytic lymphohistiocytosis, 106

Spontaneous breathing trials (SBTs), predictive value of fluid balance on extubation failure, 387
Spontaneous recovery of Epstein-Barr virus associated hemophagocytic lymphohistiocytosis, 105
Sport related concussion, parental knowledge of, in young children, 288
Staphylococcal scalded skin syndrome (SSSS), in children, 154
Staphylococcus aureus epidemiology of methicillin-resistant of, 469
paraspinal abscesses complicated by epidermal abscess and bacterial meningitis, 158
pulmonary embolism in a healthy child, 26
TFN secretion of raw 264.7 macrophages, 412
Stiff legs and severe muscle cramps in two adolescent boys, 88
Streptococcal toxic shock syndrome (STSS), clinical management for, 144
Streptococcus agalactiae (group B) endocarditis infection, after one dose of gentamycin, acute sensorineural hearing loss in, 141
Stress-induced cardiomyopathy, clinical management of, 310
Strongyloides hyperinfection syndrome (SHS), asthmatic patient with abdominal symptoms and, 143
Strongyloides hyper-infection syndrome, associated diffuse intestinal hemorrhage, 440
Sudden infant death syndrome (SIDS), cosleeping causes sudden infant death, 165
Sudden purpuric lesions in a healthy infant, 23
Superior mediastinal syndrome (SMS), associated with tumor lysis, 177
Surfactant protein A, retinal muller cell, impairs retinal endothelial cell function, 277
Surveillance, epidemiology, and end results (SEER), sebaceous adenocarcinoma: survival analysis of 2385 cases, 465
Surveillance biopsy (SBs), in pediatric renal transplant recipients, 241
Sweet seizures, epilpsia partialis continua, 67
Sydenham’s chorea (SC), 4 Y.O., 25
Symptomatic double aortic arch in an adult, 74
Syphils screening, cost analysis of laboratory testing for, 475
Systemic lupus erythematosus (SLE) among cigarette smokers, age of, 409 getting tired and short of breath, 416 role of toll-like receptors and reactive oxygen species, 396
Systolic murmur, robotic telemedicine: testing in a simulation setting, 446

T cell lymphoma breast implant associated ALK negative, 120 false positive HIV antibody test in a patient with, 126
Takotsubo cardiomyopathy. See Stress-induced cardiomyopathy, clinical management of
T-cell acute lymphoblastic leukemia chlorodex plexus papilloma complication, 115 complicated by a hemorrhagic stroke and hemophagocytic lymphohistiocytosis, 106

Salicylate toxicity, alkalinizing urine works, 243
Sarcoidosis clinical management of, 304
and sarcomeres, clinical management for, 151
Satiety, effect of high protein vs high carbohydrate diets on cardiovascular factors and, 434
