Breastfeeding women in Livingston, Montana, nutritional education for, 213
Breastmilk effects on infant microbiomes, promotion vs. bacterial growth inhibition, 265
Brown-McLean syndrome management, annular aortic membrane transplantation incorporated graft, 366
Child health program, community-partnered
Cessation of calcineurin inhibitors (CNI) with cerebral palsy (CP), maternal obesity and central venous catheter (CVC) placement of, central and juxta-endplate anterior lumbar interbody fusion plate placement with TGF-beta through optimization of, 28
Childhood obesity education, prevention and treatment to reduce prevalence of, 89 fitness camp, 185 parental perception of, 184 rates in the low income population of San Bernardino, 183
Children helmet use and overall bike safety by educating parents and children, of Hailey, Idaho, 212 improving health care quality for, admitted for acute asthma, 18 with perinatal stroke identify spatial neglect by clock drawing task utility, 414
Cholestasis in neonates with congenital gastrointestinal disorder, low dose soybean oil for the prevention of parenteral nutrition associated between, 165 Chronic anemia after heart transplantation, 48 Chronic exposure to low level of lead associated with kidney weight and glomerular hypertrophy in young mice, 305 Chronic lung allograft dysfunction (CLAD), in sputum phenotypes, 160 Chronic opioid therapy in patients with unapproved narcotic prescriptions, 311 Chronic stress correlation between salivary biomarkers and, 107 Chronically ventilated preterm lambs, ventilation approach is related to collateral consequence in brain for, 157 Cirrhosis in 25 year old woman, peripheral neuropathy, leukoencephalopathy, and, 221 Cisplatin-induced acute kidney injury (AKI) model in mice, IL-33, CD4 T cells and CXCL1 precedes renal failure and tubular injury in 4 week, 292 Clear fluid fasting evaluation guidelines for pediatric surgical patients at British Columbia Children's Hospital, 302 Clerks' elective program, learning oncology through novel interdisciplinary, 77 Clinical staging vs. pathological staging in head vs. neck tumor, 294 Coccidioidomycosis osteomyelitis in pediatric populations of the San Joaquin Valley, clinical presentations and treatments of, 225 Coffee on voiding symptoms in young healthy volunteers, effects of regular and decaffeinated, 245 Cold ischemia protection in hibernating mammary grafts, 289 Collagen deposition, effects of fibroblast and macrophage co-culture on fibroblast activation and, 99 Collateral brain damage, relationship between ventilation approach and, in chronically ventilated preterm lambs, 121 Colorectal cancer, evaluation of quality of online resources for, 106 Combat sports comparison of injuries in martial arts and, 94 Community-partnered approach to developing a maternal and newborn child health program for rural villages in northern India, 56
Complete blood count profile, atopy, eosinophilia and risk of rejection in pediatric heart transplant recipients, 8
Computed tomography (CT) ureteral length measurement techniques, retrospective comparison of radiologic methods, 240 Congenital diaphragmatic hæmia (CDH), B-natriuretic peptide and urinary cGMP in infants with, 41 Congenital gastrointestinal disorders, low dose soybean oil for the prevention of parenteral nutrition associated cholestasis in neonates with, 165 Congenital heart disease (CHD) abnormal abdominal aorta hemodynamics are associated with necrotizing enterocolitis in infants with, 179 long-term growth of survivors of, 232 in low birth-weight infants, 37 Congenital urinary tract obstruction, clinical biomarkers with long-term outcome, 308 Cost effective surgery model in resource poor setting, 349 Cost-benefit analysis of indirect antiglobulin screening in, Rh(D) negative women at 28 weeks gestation, 173 Costello syndrome growth failure with increased energy intake and resting energy expenditure, 277 Course credit effect of providing, on drop-out rates in mentorship program, 54 Cranioscoliosis, definition, 238 Critical care telemedicine program cost-effective analysis in pediatrics, 309 Critical congenital heart disease (CCHD), feasibility of pulse oximetry screening for, at 2600 feet elevation, 7 Critical heme oxygenase activity and binding in early life, 280 Critical illness identification of novel predictor of anabolic/catabolic balance and nutritional status in, 116 Cytokylation comparison of renal functional outcomes after percutaneous, 138 Culturally appropriate information, empowering urban Latinos with, on depression and anxiety, 62 Culture relevant smoking cessation interventions provided for Emmett, Idaho in Hispanic community, 360 Cultured podocyte source, 333 Curcumin protective effect of, against hyperoxic lung injury, 118 Cyclosporine renal benefit of long-term tacrolimus over, in heart transplantation, 4 CYP3A4*22 polymorphism and pediatric asthma control in fluticasone propionate pharmacogenetics, 340
Cytokine IL-17 effect to cord blood mixed mononuclear cells production of, in response to group B Streptococcus, 24
Cytomavirus knowledge and awareness of congenital, among women in rural Idaho communities, 109

3D model generation of Hill-Sachs lesion (HSL) using MRI, 384
30-Day readmissions factors for heart failure patients, 316
Dedicated breast computed tomography, contrast-enhanced, for detection of breast cancer, 76
Delirium, abiraterone-associated, 69
Delivery of cardiopulmonary resuscitation (CPR) instructions through telephone by emergency dispatchers with recognition of cardiac arrest, 406
Delusions of parasitosis (DOP) and related somatic psychosis, patient diagnosis and management, 399
Depression among older adults in Sandpoint Senior Center, IDAHO, 330
empowering urban Latinos with culturally appropriate information on anxiety and, 62
Dermal sinus tract and intradural dermoid
Delivery of cardiopulmonary resuscitation (CPR) instructions through telephone by emergency dispatchers with recognition of cardiac arrest, 406
Delusions of parasitosis (DOP) and related somatic psychosis, patient diagnosis and management, 399
Depression among older adults in Sandpoint Senior Center, IDAHO, 330
empowering urban Latinos with culturally appropriate information on anxiety and, 62
Dermal sinus tract and intradural dermoid tumor infection management, 371
Dermatology percutaneous and adaptive learning modules produce long-term learning of patterns in, 250
services, for residents of the “International District” in Albuquerque, New Mexico, 249
Diabetes acanthosis nigricans score as predictor of impaired glucose tolerance and, in obese youth, 14
emergency medical identification use in adults with, 61
meal-planning program, in Dillon, Montana, 187
risk reduction program for adolescents and young adults, correlation between self efficacy and participation hours, 387
short term vitamin C reduce cardiovascular risk in, 12
tacrolimus-induced, leads to diabetogenic complications after heart transplant, 5 variability in body fat deposits among people with type 2, 13
Diagnosis and treatment dilemma of malignant pheochromocytoma, 136
Diagnosis disagreement and errors, evaluation of, uncovered during research activities, 73
Diarrheal diseases prevalence and management under 5 years in children in rural village of Ghana, 304
Diet hypertension and local dietary options in
Rexburg, Idaho, 51
reducing risk of cardiovascular disease through modification in, in the Darhad valley, Mongolia, 45
Digital breast tomosynthesis comparison of, and full field digital mammography in breast cancer detection, 59
DNA methylation in hippocampal neuronal cells, hypoxia-induced modification, 416

Docetaxel combination of bortezomib with, for thyroid cancer, 146
Downstaged pancreatic cancer, prognostic biomarkers in patients with, 161
Drop-out effect of providing course credit on, in mentorship program, 54
Drunk driving peer-to-peer youth activism to fight, in Cody, Wyoming, 85
Duhamel and Becker muscular dystrophy (DBMD), diagnosis and surgical treatment of scoliosis in, 192

Education based on tobacco cessation for Asian/pacific islanders in Seattle, WA, 362
El Camino de Vida, dealing with, 95
El Grupo de Apoyo Social, self-sustained social support group for Spanish speakers, 93
Elderly educating the, of Baker, Montana about heat-related illness, 50
Emergency department (ED) delays associated with inpatient admissions from, 67
outcome of patients immobilized by staff of, 63
visits national study of primary care-treatable, as indicators of limited access to care, 15
Emergency medical care for Peruvian community member's knowledge, attitude and practice, 251
Emmett, Idaho provided culture relevant cessation interventions, smoking cessation in Hispanic community, 360
Endocrine surgery patients allocation to medical facility based on peri-operative risk stratification, cost savings of algorithm, 343
Endoscopic anatomy, trans-maxillary approaches to anterolateral skull base, 376
Endotoxin (ETX), Vt D treatment improves survival and lung growth after antenatal exposure to, 163
Energy homeostasis interaction between insulin and hypothalamus in regulating, 127
Epidermal growth factor receptor (EGFR) mutation analysis of, in primary lung squamous cell carcinomas, 136
Ephrinb1 ligand expression of Epha2 receptor and lethality improves, 195
Epirenic1 ligand expression of Epha2 receptor protein and, in brain of mechanically ventilated preterm lambs, 122
Epha2 receptor expression of Ephrinb1 ligand protein and, in brain of mechanically ventilated preterm lambs, 122
Epirenic1 ligand expression of Epha2 receptor protein and, in brain of mechanically ventilated preterm lambs, 122
Epicardial pacemaker implanted after cardiac strangulation, 396
Epidermal growth factor receptor (EGFR) mutation analysis of, in primary lung adenosquamous carcinoma diagnosed by radial EBUS-guided bronchoscopy, 79
Erythropoietin (Epo) in a pilot trial for perinatal hypoxia-ischemic encephalopathy neurodevelopmental outcomes after treatment with, 198
Erythropoietin stimulating agents (ESAs), neurocognitive outcomes at 18–22 months in, 197
ESET histone methyltransferase relationship between osteoblast differentiation and trabecular bone formation with, 145

Esophageal atresia (EA) multidisciplinary clinics evaluating design and feasibility at BC children’s hospital, 370
Esophagotomy associated with hospital costs for cancer, nationwide inpatient sample estimation (2001–2009), 345
Eureka, Montana, concussion prevention and education for children in, 169
Evaluation of large-joint osteoarthritis by [18F]-fluorodeoxyglucose positron emission tomography (FDG-PET) imaging, 326
Ewing sarcoma evaluation of [18F]-fluorodeoxy-D-glucose positron emission tomography, bone scan, and bone marrow aspiration/biopsy as staging investigations in, 100
Excessive gestational weight gain intervention of, in Tonasket, WA, 90
Executive function mediates effects of gestational age on behavior, 80
Expression patterns of RNA in microvesicles with glioblastoma multiforme and controls, 417
Extracorporeal membrane oxygenation (ECMO) with female prediction with poor outcomes, 347

Fall prevention education program for seniors in Eastsound, WA, 351
Family health history awareness of, and cancer prevention in Latinos of Southwest Seattle, 72
Family planning services, under-utilization of, in rural Uganda through side-effect based education of health workers, 66
Fast food nutrition awareness, in Butte, MT, promotion of, 188
Fat diet in a mouse model, valosin containing protein associated disease progression and lethality improves, 195
Fatigue, in multiple sclerosis, 131
FDG-PET evaluation of, for diagnosis of large-joint osteoarthritis, 148
Fear of falls relationship between fatigue and, in people with multiple sclerosis, 131
Fellow of the Academy of Wilderness Medicine (FWAM) during pediatric residency, 172
Female newborn rat lung, intrauterine growth restriction decreases glucose transporter-1 and ATP citrate lyase MRNA levels in, 226
Fetal and adult sheep mesenteric artery sensitivity to nitric oxide and low molecular weight nitrosodiethylenetriamine, 281
Fetal hemodynamics investigation of maternal, uteroplacental and, in high risk pregnancies, 46
Fetal hepatic glucose production, hepatic response to reduced, 11
[F-18]-fluorodeoxy-D-glucose positron emission tomography evaluation of, as staging investigations in Ewing sarcoma, 100
Fibroblast collagen gel contraction with insulin-like growth factor (IGF)-1 pathway, 341
effects of fibroblast and macrophage co-culture on collagen deposition and, 99
Fibrosis of conglomerate pulmonary with mica, silica for 15-year follow up, 359
Fitness camp, for childhood obesity, 185
Follicular mycosis fungoides, outcome of patients with, 74
Folic acid as chronic illness among seasonal and migrant farmworkers in Chelan, Washington, 96
Full field digital mammography comparison of digital breast tomosynthesis and, in breast cancer detection, 59
Functional and oncologic outcomes for single surgeon, open versus robotic radical prostatectomy (RRP), 385

G
Gastrointestinal, incidence of bladders evisceration in neonates with, 211
Gender differences in melanoma, 75
Gene expression microarray analysis of, in lung macrophages from preterm newborns, 124
Generalized pachyonychia by ultraviolet excimer laser treatment, 398
Geriatric patients stratified by age group with obesity, tobacco use, and dyslipidemia, 323
Gestational age executive function mediates effects of, on behavior, 80
Glioblastoma multiforme and controls, RNA expression patterns in serum microvesicles, 417
Glioma inhibition of platelet derived growth factor α for treatment of pediatric, 104
Global health initiative effectiveness and sustainability of, by medical students with nongovernmental organization in Kenya, 91
Glomerular hypertrophy, podocyte loss and glomerulosclerosis in absence of CD2AP, 288
Glucose hepatic response to reduced maternal glucose supply in fetal sheep, 11
Glucose transporter 1 (GLUT1) and ATP citrate lyase mrna levels in female newborn rat lung, intrauterine growth restriction decreases, 226
Glycemic control with proton pump inhibitors (PPIs) in type 2 diabetes patients, 405
Group B Streptococcus IL-17 effect to cord blood mixed mononuclear cells production of cytokine in response to, 24
Guidelines of cervical cancer screening by gynecologists in Pacific Northwest, 405
Gynecologists in Pacific Northwest updated cervical cancer screening guidelines, 405

H
Head and neck carcinoma in adult, retrospective analysis, single-center experience (2000-2012), 410
Health and nutrition awareness of children about, through activities and visual displays, 84
Health behaviors and perceptions, of Spanish speaking employees in Washington, 88
Health care team member (CLS) during invasive procedures in pediatric emergency department (ED), 407
Health education modules, effectiveness of delivering, to students in remote northern India, 55
Health education program evaluation in Uganda using pre-test post-test research, 255
Health-related quality of life (HRQL) analysis in lung transplantation, 363
Heart transplantation advances in, across the millennium, 1 chronic anemia after, 48
Heart transplant patients undergo, 180
glomerulosclerosis in absence of
Hepatitis C, viral breakthrough in, 147, 215
High fat diet and intrauterine growth restriction after Sd8 mRNA in newborn rat lung, 42
High school athletes, about the dangers of drinking and driving, increasing awareness of, 168
Highly permissive germinal center T follicular helper cells (GC TFH) to HIV-1 ex vivo from naive hosts, 270
High-throughput assay, discovery of TGF-beta from naive monocytes and alveolar macrophages in, 178
Hill-Sachs lesion (HSL), 3D model generation using MRI, 384
Hippocampal neuronal cells, DNA methylation modified with hypoxyza, 410
Hispanic women with gestational diabetes mellitus (GDM) in Brewster, WA providing education and support, 354
Histopathological evaluation of prostate cancer on multiparametric magnetic resonance imaging (MRI), 413
Human fetal neurogenesis with erythropoietin in response to corticosteroids, 28
Human gene expression in response to fetal microvasculature, 98
Human immune response in Merkel cell carcinoma, 98
Huntington’s disease (HD), potential for cure by a therapy for, 222
Hydrocephalus in patients with persistent cloaca, clean intermittent catheterization as an alternative drainage method for, 223
Hyperglycemia, role of osteoactivin in regulation of inflammatory response of macrophages in, 114
Hypoperfusion

I
Identification of barriers and facilities with academic vs. community collaborator partnership needs assessment, project export, 261
Identification of Sec pathway inhibitors of bacterial protein export with high-throughput, mechanism-based whole-cell screen using Escherichia coli, 263
IGF-1 expression, increased level of, causes alveolar simplification in chronically ventilated preterm lambs, 123
IgG and IgA antibodies, hypothesizing of, in IgA deficient females with suspected celiac disease, 108
IKKβ, role of NF-κB inhibitory protein, in modulating the response to inflammation in the developing lung, 40
IL-10 in acute kidney injury, and B-cells role of, 154
IL-17, effect of, to cord blood mixed mononuclear cells products cytokine in response to group B Streptococcus, 24
Illegal mining camps for malaria epidemiology in Madre De Dios, Peru, 257

iMER efficacy of Gase6/Mer pathway inhibitors of patient, 293
UNC MER TKI and, with and without an ADP inhibitor (P2Y1 and P2Y12), 71
Improved glucose tolerance, acanthosis nigricans score as predictor of, and diabetes in obese youth, 14
Incentive-driven program for biometric monitoring in foundry & plastic pipe workers (2010–2011), 256
Indirect antiglobulin screening in Rh(D) negative women at 28 weeks gestation, cost-benefit analysis of, 151
Induction therapy of anti-thymocyte globulin (ATG) in heart transplantation, antibody production prevention, 392
Infected dermal sinus tracts and intradural dermoid tumors management, 371
Infectious wounds treatment using integrated negative pressure wound therapy (NPWT) system with volumetric automated fluid instillation, 382
Inflammation metabolic syndrome and kidney function with influence of race/ethnicity, 286
proteins by bone marrow derived mesenchymal stem cells with nicotine exposure, 336
unique role of NF-kB inhibitory protein IκBα in mediating the response to, in the developing lung, 40
Insulin interaction between hypothalamus and, in regulating energy homeostasis, 127
Insulin-like growth factor (IGF)-1 pathway in fibroblast collagen gel contraction, 341
Intern, resident, and attending perceptions and attitudes on readmissions, 408
Interspinous spacer, laminectomy vs., for lumbar stenosis, 135
Intradural spinal surgery with complications of cerebrospinal fluid in children, 301
Intrathecal growth restriction alters mRNA transcript levels of aromatase and surfactant protein in neonatal rat lung, 43
high fat diet and, alter Sd88 mRNA in newborn rat lung, 42
mild neonatal hyperoxia exposure decreases lung static compliance in male, rats, 44
VEGF and its receptors expression affected by, in RV myocardium in a gender specific manner, 3
Intraventricular hemorrhage (IVH) in preterm premature rupture of membranes, predictors of neonatal neurologic birth depression and, 228
Isolated oligodontia, homozygous WNT10A mutation in a patient with, 193
Keratocan, Lumican and Decorin (KLD), expression of Lmx1b in nephrogenesis, 38
Kidney donor, radiation exposure of, prior to transplantation, 139
Kidney transplantation access effect of medicare vs. private insurance, 285
followed robotic prostatectomy, outcomes of patient, 293
kidney donor radiation exposure prior to, 139
pilot study to improve immunosuppressant medication adherence in recipients undergone, 64
Microarray analysis of gene expression in alveolar, from preterm newborns, 124
role of osteoclastin in regulation of inflammatory response of, in hyperglycemia, 114
Malignant pleural mesothelioma (MPM) trimodality treatment, 412
Malignant struma ovarii from papillary thyroid carcinoma, 357
MAPK oncogenic activation of, in rheumatoid arthritis synovial fibroblasts, 30
Martial arts comparison of injuries in combat sports and, 94
Mass spectrometry proteomics with targeted data independent acquisition (TDIA) method, 327
Maternal glucose supply, hepatic response to, reduced in fetal sheep, 11
Maternal hemodynamics investigation of fetal, uteroplacental and, in high risk pregnancies, 46
Meals nutritional content at pediatric hospital, 252
Mechanical tricuspid valve, right ventricular lead preclusion by, 49
Medical identification, use of, in adults with diabetes, 61
Medication adherence, pilot study to improve immunosuppressant, in adult kidney transplant recipients, 64
Medulloblastoma cells, checkpoint kinase 1 inhibition suppresses cell growth and enhances radiation sensitivity in, 164
Melanoma, gender differences in, 75
Men who have sex with men, video-based role playing to qualitative data acquisition and HIV/STI prevention among, in Lima, Peru, 87
Mass awareness of, in Latina community of Lynden, WA, 95
Merkel cell carcinoma, humoral immune response in, 98
Mesenchymal stem cells, cell viability and proliferation of, cultured on bihpic and single phase scaffolds, 141
Metabolic bone disease, effect of probiotics on, in premature infants, 32
Metabolic dysfunction, excess complement of natural killer T cells contributes to, and atherosclerosis in obesity, 10
Metformin, protective effects of, against recurrence of oral cavity/oropharynx squamous cell carcinoma, 78
Methamphetamine, effects of prenatal, exposure on neurobehavioral disinhibition, 81
Micro-mechanical sensor, label-free detection of cancer biomarkers using, 101
Microvesicle RNA from patients with glioblastoma multiforme and controls, RNA expression patterns in, 159
Mitochondrial dysfunction, nitric oxide-mediated control of vascular, in vivo, 9
Mixed mononuclear cells (MMC), IL-17 effect to cord blood, production of cytokine in response to group B Streptococcus, 24
Modafinil, trends in on and off-label usage of, in a nationally-representative sample, 19
Molecular epidemiology of strains and 366 clinical Escherichia coli isolation with whole genome sequencing, genotype vs. clinical presentation, 264
Macroarray for, 39
Macrophages M2 phenotype development of, induced by resoligizate

Morgellons disease associated with spirochetal infection, 400
mRNA, intrauterine growth restriction alters, transcript levels of aromatase and surfactant protein in neonatal rat lung, 43
Multidisciplinary obstetrics simulation, financial comparison supporting, over traditional nursing education in labor and delivery emergency management, 60
Multiparametric magnetic resonance imaging (MRI) correlated with histopathology of prostate cancer, 413
Multiple sclerosis, fatigue in, 131
Murine cytomegalovirus infection in mouse temporal bone development with age dependent progression, 268
Musculoskeletal injuries in pediatric overweight and obesity in IDAHO, 402
Mycoplasma avium complex synovitis, in immuneuncompetent patient, 111

N

Nanofiber scaffolds, human mesenchymal stem cells cultured on biphasic, for rotator cuff repair, 141
Nasal cannula, primary neonatal resuscitation with, 125
Natriuretic peptide levels, evidence for, excess complement of natural killer T cells contributes to metabolic dysfunction and atherosclerosis in obesity, 10
Nebulized nano-curcumin, effect of, against hyperoxia-induced lung injury, 119
Necrotizing enterocolitis (NEC) in infants with congenital heart disease, abnormal abdominal aorta hemodynamics are associated with, 179
Neonatal resuscitation, with nasal cannula, 125
Neonatal tracheobronchial foreign bodies management, 367
Neonates with congenital gastrointestinal disorders, low dose soybean oil for the prevention of postnatal nutrition associated cholestasis in, 165
Nephrogenesis, expression of Lmx1b, in neonates with congenital gastrointestinal disorders, low dose soybean oil for the prevention of postnatal nutrition associated cholestasis in, 165
Neurobehavioral disinhibition, effects of, and physical inactivity improvement with community exercise children, 319
Neuroblastoma with severe arthrogryposis, with basal ganglia lesions, 201
Perinatal hypoxic-ischemic encephalopathy (HIE), neurodevelopmental outcomes after embolism after, 208
Corticosteroids and hypertrophic scarring, 110
Parkinson’s disease, functional connectivity of basal ganglia networks in, 132
Patient admission delays associated with, from emergency department, 67
Patient case report of arthrogryposis, renal dysfunction and cholestasis (ARC) syndrome, 272
Patient decision-making in acute appendicitis, qualitative assessment, interview project, 379
Patient diets for low income urban populations within community constraints by medical students teaching realistic changes for patients with barriers, 262
Patient doctor communication and empathy through standardized patient interview during summer premed program, 259
Patient-centered communication, infrequent use of behavior change counseling and, with diabetic patients in safety net clinic, 57
Patients hospitalized with chronic kidney disease (CKD) and complications and risk for readmission, 287
Patients with downstaged pancreatic cancer in prognostic biomarkers, 342
Patients with gastrointestinal multiflora and controls, RNA expression patterns in serum microvesicles, 417
Pediatric residency
Fellow of the Academy of Wilderness Medicine (FAWM) during, 172
Home visit curriculum incorporation, 248
Pediatrician prenatal counseling impact on post-delivery follow-up among HIV-exposed infants, 267
Pediatrics
complete blood count profile, atopy, eosinophilia and risk of rejection in heart transplant recipients, 8
critical care telemedicine program cost-effectiveness analysis, 109
evaluation of telehealth to support pediatric sexual abuse examinations in rural communities, 20
outpatients, central line associated blood stream infections in, 216
patients and families learn resources in pre-operative and post-operative education in clinical surgery setting, 377
peritoneal dialysis, 210
primary care providers using phone interpreters for clear communication, 253
rapture of delayed extensor pollicis longus (EPL) tendon followed nondisplaced distal radius fracture, 374
rural asthma, environmental impacts on, 167
Perinatal cyaobalation, comparison of renal functional outcomes after, 138
Perinatal lung biopsy, cerebral air embolism after, 208
Perinatal hypoxic-ischemic encephalopathy (HIE), neurodevelopmental outcomes after treatment with erythropoietin in pilot trial for, 198
Perinatal stroke in children, spatial neglect identification by clock drawing task and subtyping for, 17
Perinatal vitamin D deficiency, D supplementation blocks effect of upper airway reactivity due to, 117

O

Obesity
acanthosis nigricans score as predictor of impaired glucose tolerance and diabetes in, 14
excess complement of natural killer T cells contributes to metabolic dysfunction and atherosclerosis in, 10
physical inactivity improvement with community exercise children, 319

P

Pacemaker activity of atrial-specific sodium-calcium exchanger in sinoatrial node, 2
Palliative care and end-of-life care in ICU, hospital variation and temporal trends, 209
Pancreatic cancer effects of small interfering RNA on, 152
Panda, evaluation of, as perioperative pain assessment tool, 414
Paraneoplastic process cause fetal akinesia, neuropathology of severe arthrogryposis in infant, 273
Parenteral nutrition (PN) associated cholestasis in neonates with congenital gastrointestinal disorders, low dose soybean oil for the prevention of postnatal nutrition associated cholestasis in, 165
Pain
Parkinson’s disease, functional connectivity of basal ganglia networks in, 132
Patient admission delays associated with, from emergency department, 67
Patient case report of arthrogryposis, renal dysfunction and cholestasis (ARC) syndrome, 272
Patient decision-making in acute appendicitis, qualitative assessment, interview project, 379
Patient diets for low income urban populations within community constraints by medical students teaching realistic changes for patients with barriers, 262
Patient doctor communication and empathy through standardized patient interview during summer premed program, 259
Patient-centered communication, infrequent use of behavior change counseling and, with diabetic patients in safety net clinic, 57
Patients hospitalized with chronic kidney disease (CKD) and complications and risk for readmission, 287
Patients with downstaged pancreatic cancer in prognostic biomarkers, 342
Patients with gastrointestinal multiflora and controls, RNA expression patterns in serum microvesicles, 417
Pediatric residency
Fellow of the Academy of Wilderness Medicine (FAWM) during, 172
Home visit curriculum incorporation, 248
Pediatrician prenatal counseling impact on post-delivery follow-up among HIV-exposed infants, 267
Pediatrics
complete blood count profile, atopy, eosinophilia and risk of rejection in heart transplant recipients, 8
critical care telemedicine program cost-effectiveness analysis, 109
evaluation of telehealth to support pediatric sexual abuse examinations in rural communities, 20

Western Abstracts Subject Index

Perioperative medicine rotation implementation, ICU outcome, impact of, 204
Perioperative pain, evaluation of PANDA as assessment tool for, 17
Persistent cloaca, clean intermittent catheterization as an alternative drainage method for hydrocolpos in patients with, 223
Persistent diabetic macular edema (DME) risk factors, 324
Phenylephrine efficacy with hypertension improvement in peri-intubation period, 361
Phosphotyrosine interaction domain-containing 1 (PIDD1) subcellular localization, suppressor-like protein in brain tumors, 409
Physician understanding and overcoming barriers to office-based treatment by, of opioid addiction, 16
Plasma lipoprotein size, distribution of, in preterm infants in the first month of life, 36
Plasmodium genomic variants, identification of, through streamlined pipeline, with drug development applications, 110
Plastic surgery
meta-analysis to determine the optimal duration of antibiotic prophylaxis in, 239
oral vitamin supplementation and wound healing, 235
procedure cost analysis, geography versus economics, 295
and reconstructive surgery, international publication trends in, 234
Platelet derived growth factor α, inhibition of, for treatment of pediatric gliomas, 104
Platelet-activating factor, SLAMF7 protein expression following stimulation of lipopolysaccharide and, in PMNs isolated from prematurely born infants, 27
PPARα promoters in newborn rat lung, IUGR alters DNA methylation of, 227
PR domain containing 9 (PRDM9) gene alteration DNA, 227
and reconstructive surgery, international publication trends in, 234
Platelet derived growth factor α, inhibition of, for treatment of pediatric gliomas, 104
Platelet-activating factor, SLAMF7 protein expression following stimulation of lipopolysaccharide and, in PMNs isolated from prematurely born infants, 27
PPARα promoters in newborn rat lung, IUGR alters DNA methylation of, 227
PR domain containing 9 (PRDM9) gene analysis of, shows diversity and points toward potential specification mechanism in ancestral primates, 150
Pregnancy investigation of maternal, fetal, and uteroplacental hemodynamics in high risk, 46
Premature infants ≤ 30 weeks gestational age (GA), umbilical cord blood gases and neonatal respiratory outcome relationships, 365
effect of probiotics on metabolic bone disease in, 32
with graded oxygen saturation targets in relation to outcomes, 331
Preterm birth associated with posttraumatic stress disorder (PTSD) for military sexual trauma, 404
Preterm infants differences in clinical presentation of, (birth weight less than or equal to 1250 grams) with spontaneous intestinal perforation, 35
distribution of plasma lipoprotein size in, in the first month of life, 36
end of life care for, 229
Preterm lambs after preterm delivery, absence of cerebral autoregulation in, 200
ventilation approach is related to collateral consequence in brain, chronic ventilation for, 157
Preterm premature rupture of membranes (PPROM), predictors of neonatal neurologic birth depression and intraventricular hemorrhage in, 228
Primary graft dysfunction (PGD) characteristics in single center experience, 395
Primary hyperparathyroidism with hypocalcemic patient followed surgical correction, chronic parathyroiditis, 358
Probiosis effect of, on metabolic bone disease in premature infants, 32
Prostate cancer, novel strategy to identify biomarkers for, 219
Protease activity, evaluation of, in asthma, 26
Protein surface modification with adipose derived stem cells and chondrocytes co-culture on cartilage and bone scaffold, 378
Psoriasis by ultraviolet excimer laser treatment, 398
Public schools, relationship between peak influenza activity and absenteeism rates in, 247
Pulmonary hypertension in infants with omphalocele, 34
secondary to HIV, lung transplantation for, 206
Pulse oximetry, feasibility of, as screening tool for critical congenital heart disease at 2600 feet elevation, 7
Qualitative analysis of heat-related illness prevention and treatment in adult outdoor crop workers, 258
Radiation exposure, kidney donor to, prior to transplantation, 139
Radio traffic public service announcements tool for critical congenital heart disease at, 247
Radioactive iodine ablation, disparities in use in, 239
Radio traffic public service announcements tool for critical congenital heart disease at, 247
Readmission rates on intern, resident, and senior medicine residents, performance of, 331
Senior citizen benefits with leisure activity participation through education in Ennis, MT, 350
Senior medicine residents, performance of, in placing central venous catheter, 21
Septic shock, beta blocker effect on survival in, 113
Serum microvesicles from patients with gliblastoma multiforme and controls, RNA expression patterns in, 159
SetD8 mRNA, high fat diet and intrauterine growth restriction after, in newborn rat lung, 42
Sex chromosomes of 48, XXYY syndrome, genetic origin of, 189
Sexual abuse, evaluation of telehealth to support pediatric, in rural communities, 20
Sickle cell gene, newborn screening (NBS) programs identify patients with, 191
Sickle cell genotype, awareness of, among Nigerians in the United States, 58
Sinusoidal node, pacemaking activity of atrial-specific sodium-calcium exchanger in, 2
Sitagliptin induced hepatic injury, case report of, 2
Skilled attendant births, strategy to increase, in Kenya, 92, 144
Skin cancer prevention and identification program in Saratoga, WY, skin protection, 314
Prevention of, in Hispanic agricultural community of Othello, WA, 70
Tacrolimus-induced diabetes leads to diabetic complications after heart transplant, 5 renal benefit of long-term, over cyclosporine in heart transplantation, 4
Telehealth, evaluation of, to support pediatric sexual abuse examinations in rural communities, 20
Testosterone examination of, in healthy older men using structural brain MRI, 133 and lipids relation in large hospital database by diabetes status among men, 322
Tetralogy of Fallot (TOF) patient, maze procedure for atrial tachyarrhythmia in, 175 TGF-beta discovery of, through the optimization of cell-based high-throughput assay, 28
Thyroid cancer disparities in use of radioactive iodine ablation for well differentiated, 103 pharmacologic inhibition of NFKB combined with taxane-based chemotherapy for treatment of, 146 TORCH infection screening, utility of, in small for gestational age infants, 33 Trabecular bone formation, relationship between ESET histone methyltransferase with osteoblast differentiation and, 145 Transcription activation domain mechanism, 411 Transgenic mice overexpress aldose reductase in lens, reduction of sorbitol level with synthetic α-glucogallin, 355 Transsacral screw fixation failure in posterior pelvic ring injuries with zone II sacral fractures, 299 Trauma hemorrhagic shock with inflammatory marker Mcp-1 in rat brain, 344 Tuberculosis (TB) area district uganda using information and communication technology, 224 support and advocacy group, in Ventanilla, Peru, 246
Tumor suppressor-like protein in brain, phosphotyrosine interaction domain-containing 1 (PIDD) subcellular localization, 409 Type 2 diabetes care among Zuni Indians with perceptional disparities, 321 patients with proton pump inhibitors (PPIs) effects on glycemic control, 403 variability in body fat depots among people with, 13 Type 1 diabetes with bismohormonal closed loop treatment, glucagon biochemical stabilization by polyphenols, 320 Typical development, immunization rates among children with autism spectrum disorders and, 83

**U**

Ultra-small tracheobronchial foreign bodies management in neonates, 367 UNIC MER TKI, efficacy of Gas6-Mer pathway inhibitors iMer and, with and without an ADP inhibitor (P2Y1 and P2Y12), 71 Upper pole access, complication rate for percutaneous nephrolithotomy, 137 Urinary tract infections (UTI) in premature infants and infants less than 2 months, diagnosis and management of, 174 Urinary tract obstruction with apoptosis inhibited by TRPV4-deficiency, 386

**V**

Vascular endothelial growth factor (VEGF), intrauterine growth restriction affects expression of, in RV myocardium in a gender specific manner, 3 Vascular mitochondrial dynamics in vivo, nitric oxide-mediated control of, 155 Ventilation, relationship between collateral brain damage and, in chronically ventilated preterm lambs, 121 Ventricular fibrillation, descriptive analysis of, waveform progression and its relationship to survival, 6 Video-based role playing, to qualitative data acquisition and HIV/STI prevention among men who have sex with men in Lima, Peru, 87 Videoconferencing impact on stress in hospitalized children, 307 Viral breakthrough, in hepatitis C, 147 Visual corticospinal tract, β2-chimaerin-mediated regulation of stereotyped pruning in, 128 Vitamin C, short term, reduces cardiovascular risk in diabetes, 12 Vitamin D supplementation for upper airway reactivity due to perinatal vitamin D deficiency, 117 treatment, improves survival and lung growth after antenatal exposure to endotoxin, 163

**W**

Wellness incentive program, outcomes of lumberyard, 68 Whole body cooling, developmental outcomes of infants with hypoxic ischemic encephalopathy after, 86 Wireless sensors, home and community walking for clinical trials and daily care using, 126 WNT10A mutation in a patient, with isolated oligodontia, homozygous, 193 Work hours, quantification of, in publishing a retrospective study, 65 Wound healing analysis of, using high-throughput RNA-sequencing, 25

**X**

XXYY Syndrome, genetic origin of sex chromosomes of 48, 189

**Y**

Young woman of 25 year, peripheral neuropathy, leukoencephalopathy, and cirrhosis in, 221 Ypsilanti in Mile City, sun safety awareness, 171 of Red Lodge, Montana, water safety education for, 211 treated with second-generation antipsychotics, beta-cell function is impaired in, 182

---

SLAMF7 protein, expression of, following platelet-activating factor and lipopolysaccharide stimulation in PMNs isolated from prematurely born infants, 27 Sleep measurement by actigraphy with pulmonary rehabilitation effects, 254 Small for gestational age (SGA) status, role of, in congenital heart disease repair of low birth-weight infants, 37 Small interfering RNA (siRNA) effects on pancreatic cancers, 152 treatment of pancreatic cancer using, 102 Sodium-calcium exchanger, abnormal sinoatrial node pacemaking activity of atrial-specific, 2 Sonic hedgehog (SHH) up-regulation by fibroblast growth factor with TFA2P2 downstream intermediate, 279 Spanish speakers health behaviors and perceptions of employees of, in Washington, 88 self-sustained social support group for, in Anchorage, Alaska, 93 Spirophenotypic traits in chronic lung allograft dysfunction (CLAD), 337 Spontaneous intestinal perforation diagnosis using ultrasound in preterm infants with birth weight ≤ 1250 grams, 283 differences in clinical presentation of preterm infants (birth weight less than or equal to 1250 grams) with, 35 Squamous cell carcinoma, protective effects of Metformin against recurrence of oral cavity/oropharynx, 78 Staphylococcus epidermidis with ESP secretion inhibit colonization with Staphylococcus aureus in hospitalized newborn infant, 284 Static compliance, mild neonatal hyperoxia exposure decreases lung, in male intrauterine growth restriction rats, 44 Stem-cell derived laryngeal mucosa replacement, quantitative and qualitative evaluation, 383 Strain measurement during cartilage formation using surface replacement scaffold, 134 Structural brain MRI analysis of testosterone effect on brain by, 133 Student in primary care school with specialty disrespect (SD), 315 Student's applied knowledge testing with standardized tests and simulators in critical care, 364 Surface replacement scaffold measurement of strain during cartilage formation using, 134 Surgical site infection rates, effect of preoperative washes on, 241 Survival descriptive analysis of ventricular fibrillation waveform progression and its relationship to, 6 Syndecan-1, attenuation of lung cancer malignant phenotype by via RhoA activation, 115
